

#### LATEST NEWS:

### *sj.se faster and more secure with Varnish*

SJ has increased capacity and shortened response times for its website [sj.se](http://sj.se) by implementing Varnish Web Cache. Response times on the home page have been improved by almost 300%, while the site can handle an unlimited number of simultaneous visitors without impairing response times.

### *Superstar to deliver Hibernate training*

We are proud to announce another addition to our growing Java Enterprise curriculum - a session focusing on [Java Persistence with Hibernate](#). The session is developed by Christian Bauer (yes the Christian Bauer), who will also be the instructor for the first couple of instances, understandably we are very excited!

Christian Bauer is one of the well-known authors of the bestsellers "Java Persistence with Hibernate" and "Hibernate in Action", (see <http://jpwh.org>). He describes himself as: "Published author and public speaker, contributor to and creator of Free Software projects." We simply call him a Enterprise Superstar!

This course is based on his new edition of the book "Java Persistence with Hibernate", published later this year. Be the first to get hands-on with the latest Hibernate material!

### *Sourcefire FirePOWER - bigger, stronger, faster*

NSS Labs, the premier independent test authority for the security industry, has released new product analysis reports for three FirePOWER appliances - the 8120, 8250 and 8260 models.

**SOURCEfire** The results are spectacular! Sourcefire is the first vendor to achieve the best results in NSS Labs independent IPS test for four consecutive years. In this year's reports Sourcefire surpassed the past results to establish new record benchmarks in security effectiveness, performance and total cost of ownership. Of course we are proud of being a Sourcefire partner!

### *Royal tweet*

As Gold Sponsor at GoOpen we were happy that HRH Haakon Magnus, visited the event. And even happier when we saw this [tweet and photo of our own Margrethe Gleditsch](#), Managing Director in Norway.

During the event we were highly represented in the tracks Cloud Computing and Java Solutions.

### *Refurbished website - with responsive design*

As per April 20th we have got a [brand new website](#) (using responsive design, see for yourself - in any mobile device), we hope you like it!

For those missing to be able to read it in local language - rest assured - we will launch our Swedish, Danish and Norwegian sites shortly.
