The connected reality - Nordic survey

Show mature is the Nordic market when it comes to digital transformation? Does companies and organisation have IoT on their agenda? Which areas are top priorities?

You will find the answers to these (and more) questions in the recently published survey "The Connected Reality".

Hosting and maintenance on Greenland

In the business environment and competitive landscape of today, it is becoming increasingly important to handle digital assets and processes related to these in an efficient way.

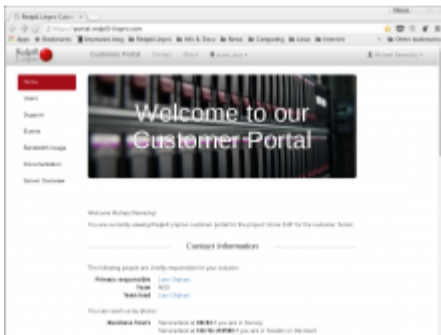

An increased efficiency in cooperation between employees, customers, suppliers and other external parties is also of great importance to keep or improve your competitive advantage.

Renewed customer portal

In an effort to improve the way our customers can get access to information, our team has worked on a new and improved version of our customer portal.
With this architecture in place, we expect to further improve and expand the information and services provided through our customer portal in the future.

Nordic premiere partner and Middleware partner with Red Hat

Happy to announce that we have signed an extended partnership with Red Hat Inc. It covers the entire Scandinavian region and makes us a Premier Partner of Red Hat.

With the newly signed Nordic Red Hat partnership agreement, we will be able to assist users to deploy, develop and configure these platforms wherever they are needed to support customers digital transformation processes.
