Customer survey result

The customer survey that we invited to in previous newsletter suggested that two of the most common reasons for investing in Open Source are:

1. Reduced cost and easier administration
2. Easier to build tailor-made systems and infrastructures

A full article on the survey will be published and you will be able to read it in up-coming issue of our Newsletter.

The winner of the survey grand prize, has been notified.

A warm thank you to all participants - you gave us a lot of valuable feedback!
