LATEST NEWS:

Need a platform to virtualize your Red Hat Enterprise Linux workload?

Powered by the Open Source Kernel-based Virtual Machine hypervisor, Red Hat Enterprise Virtualization 3 offers a superior balance of:

* Enterprise virtualization features
* Performance
* Scalability
* Management

Explore RHEV3 together with expert technicians from Red Hat and Redpill Linpro. Welcome to participate in this hands-on session where you learn how to run RHEV3 in your data center.

Java vs .NET

One of our brightest Java experts Jens Augustsson was asked by Techworld (a Swedish IT publication) to give his view on Java as "a language of the future". Techworld then comapared his thoughts with the thoughts of a .NET-expert.

Services and training for migrating to JBoss AS 7.1 now available!

We are proud to announce that we are able, maybe even as the first company in the world, to offer services and training to support our customers with migration or development projects on JBoss AS 7.1!

You can now engage our expert consultants as mentors in your JBoss AS 7.1 project as well as register for a one (1) day course for JEE developers wanting to learn JBoss AS 7.1.
