#### LATEST NEWS:

### *Identify threats targeting mobile devices*

**SOURCEfire** Mobility and the Bring-Your-Own-Device (BYOD) trends are increasing the security risk to corporate networks and data. This week Sourcefire launched FireAMP Mobile, which provides visibility to identify threats targeting mobile devices connected to your network and control to block these threats—even for devices that are employee owned. Plus, FireAMP Mobile works seamlessly with Sourcefire's existing FireAMP solution for other endpoints.
