The power of Snort - RedLabX seminars in Stockholm and Oslo!

Do not miss out on the opportunity to participate in our popular RedLabX seminars. There are still seats left in Oslo, November 29th and in Stockholm November 30th. Both seminars will focus on Snort, and we are hosting them together with Sourcefire. If you find a RedLabX that is fully booked but that you would like to attend - send us a note and we will place you on our waiting list.

Support, consulting and training services for MySQL

We are now working together with the Swedish company SkySQL AB, founded by former executives, personnel, and investors of MySQL AB. Together with SkySQL we provide support, consulting and training services for MySQL® products.

We have available seats at our Administering MySQL training sessions in Norway, Sweden and Denmark. [Sign up](#) if you are a new DBA who want to learn all the tricks of the trade, or if you are a more knowledgeable DBA who want to extend your skills to master all parts of administering a MySQL server.

Developers gathering in Gothenburg

In April we gathered about 50 developers in Gothenburg for an afternoon of fast, hot, technical and to-the-point-presentations. Now we are repeating the success, at our brand new premises on Johan på Gårdas gata 5. Glimpses from the agenda:

- Git and JBoss AS7 in the cloud - how OpenShift works
- Drools planner - a fun example
- BDD - let the customer do the testing
- CMIS - one specification to rule them all

If you want to secure your seat - [register today!](#)
