

LATEST NEWS:

The business value of integration

The state of digitalisation, integration, DevOps and automation in the Nordic countries compared to North America. Differences in focus areas are identified, for instance the Nordic countries prioritise efficiency and cost reduction where companies and organisations in North America have new business opportunities as their top priority.

Are you API Ready? Your steps for success

API Economy has been the talk of the town for a while now. And no wonder. Through API Economy we have been introduced to phenomenon such as API led Connectivity, API Management and API Strategies.

And as often with new technical progress we find a lot of people talking about it but not understanding how it will affect us and our businesses. So what does it actually mean?
