

LATEST NEWS:

"Tomorrow belongs to those who can hear it coming"

Our CEO, Anders Liling, reflects on an article in ComputerSweden, which has the headline "Internet-of-Things the next paradigm shift". Giving his view on what will be important to do in order to be prepared for the race.

Read more about how why you should prioritise the structure and make room for the shift in your budget in his blog post - ["IoT a revolution"](#)

Will your new APIs destroy your back-end?

While new services, APIs and apps are introduced boosting your business opportunities, your back-end will most definitely suffer.

Learn how you can [master this act of balance](#).

A new twist to an old relationship

By adding the WSO2 platform to our already strong integration offering, we will increase our capability to assist customers with the required integration and API management capabilities to support digitalisation and "mode 2" IT.
