

PRESSEMELDING, Oslo 31. Januar

WSO2 lanserer globalt Training og Sertifiseringsprogram sammen med Redpill Linpro

WSO2, leverandør av Carbon Middleware Platform, en av de mest spennende integrasjonsplattformene på markedet for øyeblikket, lanserer nå sammen med Redpill_Linpro et training- og sertifiseringsprogram. Lanseringen skjer på WSO2s utviklerkonferanse, WSO2CON i London, den 12-14 Februar.

- Vi har jobbet sammen med WSO2 det siste året med utvikling og design av det nye kurs og sertifiseringsprogrammet, og vi er svært fornøyd med resultatet. Vi gjennomførte nylig de første kursene hos kunder i Nord-Amerika, og deltagernes gjennomsnittlige karakter var 9/10, noe vi er veldig stolte over, sier Margrethe Gleditsch, Administrerende direktør Redpill Linpro.

Redpill Linpro har vært den ledende leverandøren av kurs og sertifisering på åpen programvare og systemer i et antall år. Virksomheten baserer seg dels på partnerskap med internasjonale programvareselskap og dels på utvikling av egne kurs. Redpill Linpro har innen flere teknologier verdensledende eksperter og det å gjøre denne kunnskapen om til kurs og sertifiseringsprogram er en tradisjon som går langt tilbake.

- Vi setter veldig pris på samarbeidet med WSO2 som viser at vår erfaring innen kurs og sertifisering holder høy internasjonal standard. Dessuten er dette spennende for flere av våre ansatte som vil ha verden som arbeidsplass, avslutter Margrethe Gleditsch.

For mer informasjon om WSO2 og kurs- og sertifiseringsprogrammet, se WSO2s pressemelding nedenfor, samt www.redpill-linpro.com/wso2.

WSO2 Offers Technology Training and Certification Program in Conjunction with WSO2Con 2013 in London

IT professionals can save 20% by registering for both WSO2Con 2013 and the two-day WSO2 Carbon enterprise middleware training and certification program

Palo Alto, CA – January 31, 2013 – The award-winning WSO2 Carbon enterprise middleware platform has been designed to implement and support enterprise architecture best practices. Now IT professionals attending WSO2Con 2013 can gain certification in implementing WSO2's platform by participating in a two-day program being held in conjunction with the conference at the Park Plaza, Victoria in London. The certification program, "Adminstrating the WSO2 Carbon Platform," will run February 11-12, and WSO2Con will run February 13-14. IT professionals can save 20% by registering for both events at <http://wso2con.com/registration>, and using the promotion code: **WCTCB20**.

Conducting the two-day training and certification program will be WSO2 partner Redpill Linpro, a leading provider of professional open source services and products in the Nordic region. Redpill Linpro provides consulting, development, training, support, and application management for many of the world's leading open source products. For more information, visit <http://redpill-linpro.com>.

Certification and Training Program Overview

"Adminstrating the WSO2 Carbon Platform" is a two-day course designed for systems administrators without previous WSO2 Carbon experience. It is aimed at helping these IT professionals learn how to monitor and manage the WSO2 Carbon platform and how to react to common issues and problems. Attendees will learn how to install, configure, and maintain the WSO2 Carbon platform, as well as deploy enterprise Java applications in a single machine or clustered configuration. In addition, participants will learn how to work with data sources, common product integrations, and basic security features. The course also will cover management tools via JMX and the management console. Immediately following the session, there will be an opportunity to take a certification exam to become a WSO2-certified Carbon Platform Administrator. For more details on the course outline, pre-requisites, materials, visit <https://training.redpill-linpro.com/category/wso2/course/administrating-the-wso2-carbon-platform>.

About WSO2Con 2013

WSO2Con 2013, WSO2's third user conference, will bring together WSO2 technical experts, enterprise IT executives, researchers, systems integrators, and other third-party solution providers. Collectively, they will explore best practices in API management, service-oriented architecture (SOA), cloud computing, mobile, data and analytics, application development, enterprise integration and governance, along with IT strategies for improving productivity and competing in a global economy. They also will represent a broad cross section of markets, including financial services, government, retail, telecommunications, information technology, universities, and research institutions. The

event is being held at the Park Plaza, Victoria in London, and it will be joined by a live stream event from the Cinnamon Lakeside in Colombo, Sri Lanka. For more information, visit <http://wso2con.com>.

About WSO2

WSO2 is the lean enterprise middleware company. It delivers the only complete open source enterprise SOA middleware stack purpose-built as an integrated platform to support today's heterogeneous enterprise environments—internally and in the cloud. WSO2's service and support team is led by technical experts who have proven success in deploying enterprise SOAs and contribute to the technology standards that enable them. For more information, visit <http://wso2.com>, or check out the WSO2 community on the [WSO2 Blog](#), [Twitter](#), [LinkedIn](#), [Facebook](#), and [FriendFeed](#).
